6 COOPERATIVE COMMUNITIES IN BARANYA COUNTY -- Budapest, Nepszava, 22 Feb 51

During the past week, six villages became "cooperative communities" in baranya County. In 2 days, 347 families, comprising 429 workers with 3,276 cadastral yokes, joined cooperatives in Magocs. Of these, 347 families comprising 366 workers with 3,149 cadastral yokes formed new groups and the remaining 22 families enrolled in the three existing cooperatives. Only 12 families remain independent in the community.

In Nemetboly, 71 families comprising 91 workers with 672 cadastral yokes established a Type I cooperative and all the remaining peasants, with the exception of three families, joined the existing Type III group.

All working peasants in the communities of Borjad, Nagyharsany, Baksa, and Gorcsony are now members of producers' cooperatives. In Borjad, the remaining 49 independent families, holding 514 cadastral yokes, formed a Type I group. At Nagyharsany, 58 families with 480 cadastral yokes formed a Type I group and the remaining workers joined the village's Type III group. At Baksa, 62 families of 143 workers with 624 cadastral yokes joined the tract-farming movement, and the 14 remaining families joined the Type III group. When the village's enrollment in cooperatives was complete, the Baksa peasants went to the neighboring village of Gorcsony and aided in recruiting 100 families of 209 workers who formed a Type I group, and 22 families who joined a Type III group, making Baksa a cooperative community.

MINISTER MAKES STATEMENT -- Budapest, Friss Ujsag, 25 Feb 51

The Minister for Agriculture announced that until further notice no permission will be granted for the formation of new producers' cooperatives after 10 March. The minister advised, however, that organizing committees be formed, so that new cooperatives may be established after the crops have been harvested. This announcement does not prevent workers from joining cooperatives or groups which have already been authorized.
